MANY Members of the LIBRARY COMPANY OF PHILADELPHIA, sensible of the Inconveniencies attending the Rooms at present occupied, and being desirous of one more commodious, have induced the DIRECTORS to call two general Meetings, that the Matter might be fully considered; at neither of which did a sufficient Number attend to do Business, although the Necessity of the Measure seems generally admitted, the Books being crowded together;—the Rooms insufficient to contain any considerable Addition;—the Philosophical Apparatus unseen, and rendered in a great Measure useless.

The COMPANY is at present possessed of a Stock of FIFTEEN HUNDRED POUNDS, besides the annual Income of above Two HUNDRED POUNDS, arising from the yearly Payments of the Members; how to apply this Money most beneficially, is what the DIRECTORS aim at, and therefore desire to collect the Sentiments of the whole Company.

Some of the Members propose, that an Application should be made to the ASSEMBLY for Part of the STATE-HOUSE Lot, while others recommend the Purchase, or taking up on Ground-Rent, a Lot whereon to erect a suitable Edifice.

You are therefore requested to attend the Meeting of the Company, advertised to be held at Three o'Clock To-morrow Afternoon at the STATE-HOUSE. Business will begin *precisely* at Four o'Clock; when the following Questions will be proposed.

First. Do you think it expedient to build a new Library Room?

If this be approved, then

Second. Shall the DIRECTORS, in the Name of the COMPANY, apply to the ASSEMBLY of this Province for Part of the STATE-HOUSE Square?

If this be not approved, then

Third. Shall the DIRECTORS purchase or take up on Ground-Rent, a Lot?

If either the SECOND or THIRD Questions are agreed to, then

Fourth. Do you empower the DIRECTORS, for the Time being, to build a suitable Edifice on the Lot, either so to be obtained from the ASSEMBLY, or purchased or taken up on Ground-Rent?
